OF TWO WAYS.

The bladder was careated for one purpose; namely, a receptac'e for the urine, and as much it is not liable to to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The 1891, provides that County Surveyors be allowed second way is from careless local treatment of other diseases.

CHIEF CAUSE.

Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder, was created for one purpose, and it nor doctored too much is not liable to weakness or disease, excep. in care cases. It is situated back and very close to the bladder, therefore any pain, diser . or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistate, attributed to female weakness or womb trouble of some sort. The error is easily made and may be as easily avoided. To find out correctly, set your urine aside for twenty four hours; a sediment or settling John T.
